

## #homedevos 20.3

### FAMILY NIGHT

---

I want to encourage you to have supper together around the dining room table. We so often, especially at the end of the week, tend to sit in front of the TV and have supper – together, but with little connection with one another.

It is around the table that we hear one another's stories and where we connect. Let us be intentional to enjoy our meals together around the table.

You will find a link with a testimony from Aunty Marietjie. You can listen to it together as a family. It ties in with the last two weeks' #homedevos.
